gbautist@ualberta.ca • (780) 380 0297 • Edmonton, AB

EDUCATION

University of Alberta | Edmonton, AB

Expected: Spring 2027

BSc in Computing Science w/ Specialization - Software Practice

Coursework: Computer Organization & Architecture, Data Structures & Algorithms (I & II), Operating Systems, File & Database Management, Software Engineering, Web Application & Architecture, Software Process and Project Management

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, JavaScript, TypeScript, SQL, HTML/CSS, R

Frameworks & Libraries: React, React Native, Node.js, Django, Flask, FastAPI, Supabase, Jest

Tools & Platforms: Git, GitHub, VS Code, Android Studio, Firebase, MongoDB, Tableau, Postman, UML, Microsoft Office

Methodologies & Practices: Agile (Scrum), Test-Driven Development (TDD), Continuous Integration & Deployment (CI/CD)

EXPERIENCE

Summer Field Technician | GPPSD | Grande Prairie, AB

Summer 2023 & 2024

- Installed, configured, and replaced computers, software, hardware, and networking systems across 18 schools, ensuring smooth operation and providing on-site support during upgrades and transitions.
- Collaborated with a team of IT professionals to diagnose, maintain, and perform hardware repairs/upgrades, offering comprehensive district-wide technology support through direct assistance and the ticketing system.

Developer & Product Manager | SAPAA

September 2025 - Present

- Built and maintained backend services with Supabase (PostgreSQL) for a mobile and web “Field Notes Reader” app used by SAPAA stewards in Alberta, supporting offline/online access to site inspections, insights, and a built-in admin dashboard; deployed on Cybera with real-time updates, authentication, and CI/CD pipelines.
- Operated in a hybrid developer and project management role, facilitating Agile processes, coordinating stakeholders, mentoring new team members, and driving timely delivery of product milestones.

PROJECTS

Sociabl | Android Studio, Java, Firebase

- Worked as a full-stack developer using Android Studio/Java and Firebase in a team of 6 to design and develop ‘Sociabl’, an event management app where users can create and join events
- Applied Agile/Scrum practices: participated in sprint planning, assigned 1-5 story points for task estimation, and collaborate cross-functionally to meet project milestones

Distributed Social Networking Platform | Django, JavaScript, PostgreSQL, Heroku, HTML/CSS, REST API

- Built a simplified distributed social network inspired by Diaspora, enabling users to post public, friends-only, and unlisted entries with cross-node inbox delivery.
- Developed full-stack services in Django/Flask with PostgreSQL (Heroku), including entry storage, comments, likes, follow relationships, node-to-node REST API communication, and frontend interfaces for profile management, entry creation/editing, and aggregated streams; applied Agile methodologies, team collaboration, and API design principles, integrating with other groups to simulate real-world distributed systems.

EXTRACURRICULARS

577 RCAC | Grande Prairie, AB

September 2016 - June 2019

- Engaged in weekly activities to develop and improve leadership, physical fitness, aviation knowledge and other personal and team-building skills
- Awarded the “Most Outstanding Junior Cadet” for demonstrating exceptional performance in leadership, citizenship, and overall skill across several cadet activities and responsibilities

UAlberta Badminton Club | Edmonton, AB

September 2023 - Present

- Participated in regular practices and events, fostering teamwork, sportsmanship, and physical fitness
